PICTURE

HYBRID TEA ROSES

Plumfield's hardy 2-year-old field grown roses will bloom the same year they are planted.

	Each	Per 3	Per 12
2-year heavy selected plants.....	\$1.25	\$3.50	\$13.50
2-year standard plants	1.00	2.90	10.00

RED SHADES

AMI QUINARD—Tall, vigorous and profuse. One of the darkest red.

CRIMSON GLORY—Color deep crimson, a "glory" rose, glorious in its perfect form, large size and fragrant.

GRUSS AN TEPLITZ—Vivid, fiery crimson, sweetly fragrant.

E. G. HILL—Dazzling scarlet, shading to a deeper pure red.

ETOILE DE HOLLANDE—Bright, dark red, deliciously perfumed.

MARGARET McGREDY—Oriental red, shading to carmine rose.

McGREDY'S SCARLET—Brilliant scarlet shaded rose-pink; vigorous.

NIGGER BOY—Double, high-centered, fragrant. Dark maroon blooms in clusters. Very hardy.

POINSETTIA—Long pointed buds, double open flowers. Scarlet.

RADIANCE, RED—Bright rose red form of Radiance.

PINK SHADES

EDITOR McFARLAND—Shapely buds and double brilliant pink blooms.

BETTY UPRICHARD—Delicate salmon pink shaded with coppery orange.

BRIARCLIFF—Brilliant pink, long bud.

PICTURE—Warm pink, undertones of salmon; strong and vigorous.

PINK DAWN—Perfectly formed, deep rose pink, toned orange.

RADIANCE, PINK—Rosy carmine pink, large beautiful form.

THE DOCTOR—Large buds, semi-double flowers. Satiny pink. Fragrant.

WHITE SHADES

CALEDONIA—Large, double white, borne singly on long, strong stems.

McGREDY'S IVORY—Large, well shaped, creamy white. Fragrant.

YELLOW SHADES

GOLDEN RAPTURE—Long lasting, beautifully formed buds, fully double blooms of rich yellow on long stems. A vigorous grower.

MRS. PIERRE S. du PONT—Bud reddish gold, flower deep golden yellow becoming lighter with age.

MRS. E. P. THOM—Rich lemon yellow, sweetly scented.

McGREDY'S YELLOW—Bright buttercup yellow; perfect form; vigorous.

JOANNA HILL—Clear yellow, deepening at the center.

SOVER THERESE—Very vigorous, upright, profuse; double rich yellow.

TWO-TONED SHADES

MME. JOSEPH PERRAUD—High centered, perfectly formed buds and double blooms shading from shell pink at the edges to buff and orange in the center. An excellent variety of superior quality.

MRS. SAM McGREDY—Large double flowers, pointed buds, scarlet-copper-orange. Fragrant.

PRES. HERBERT HOOVER—Orange and pink, flamed and suffused with vivid rose pink.

TALISMAN—A combination of shadings of gold, apricot, yellow, and deep pink.

PIERRE du PONT

McGREDY'S SCARLET

AMI QUINARD

Plumfield ROSES

IDEAL

BABY and FLORIBUNDA ROSES

2 year select plants, \$1.25 each; 3 for \$3.50;
12 for \$13.50.

ALAIN—Bright carmine-red blooms come in clusters all over the densely branching plants; a good clear, lasting color. Semi-double, with large bright golden centers. Thick foliage on strong green stems and husky plants. 2½ feet tall.

BABY CHATEAU—Deep red massive blooms. One of the best of its type.

CAMEO—A distinct shade of shell pink and salmon with a glow of gold.

CHEER—Orange-pink with large bloom about four inches, opening gracefully in large clusters.

DAGMAR SPAETH—Alabaster white edged pink.

ELLEN PAULSEN—Rather large, fairly full flowers of bright rose pink. Slightly fragrant.

ELSE POULSEN—Bright, rose-pink, fragrant.

EUTIN—Large clusters of very double, deep red flowers. Large flowers. Mildew resistant bush. One of the best.

FLORADORA—Scarlet and geranium red floribunda producing double 25 petaled flowers. Height 2½ ft.

FRENHAM—Large, semi-double, slightly fragrant, deep crimson, foliage dark, leathery. Very vigorous, bushy; abundant bloom.

BABY and FLORIBUNDA ROSES Continued

IDEAL—Dark scarlet, borne in profusion. Immense, compact bunches. Vigorous and blooms continuously.

KIRSTEN POULSEN—Bright scarlet in clusters on long stems.

LAFAYETTE IMPROVED—Large clusters of bright cherry crimson.

PERMANENT WAVE—Large semi-double flowers of rosy-pink with cerise edges. Petals are waved permanently from bud stage to the finish. Vigorous and bushy.

ELSE POULSEN

CLIMBING ROSES

BLAZE—Hardy, vigorous climbing rose similar to Paul's Scarlet. Recurrent blooming. Scarlet crimson flower. 2 year select, \$1.25 each; 3 for \$3.50.

CLIMBING AMERICAN BEAUTY—Brilliant carmine red. 2 year select, \$1.25 each; 3 for \$3.50.

CRIMSON RAMBLER—Deep crimson. 2 year select, \$1.00 each; 3 for \$2.70.

DOROTHY PERKINS—Shell pink. 2 year select, 90c each; 3 for \$2.60.

GARDENIA—Rich creamy yellow. Borne in small sprays. 2 year select, \$1.10; 3 for \$3.15.

PAUL'S SCARLET—Intense scarlet flowers of excellent shape and moderate size. Borne in small trusses. 2 year select, \$1.25 each; 3 for \$3.50.

LAFAYETTE IMPROVED

RUGOSA, RUGOSA HYBRID and MISCELLANEOUS ROSES

F. J. GROOTENDORST SUPREME—Double bright crimson in large clusters. 18-24 inches, \$1.35 each; 3 for \$4.05.

PAUL'S SCARLET

Be sure to read our Planting Instructions, "How to Plant Your Roses." This is important if you expect to get a good survival.

Plumfield ROSES

PATENTED HYBRID TEA AND FLORIBUNDA ROSES

PEACE

CAPRISTRANO (Patent No. 992)—Rich shade of deep glowing rose pink, in the buds as well as in open flower. It retains its brilliant color throughout the life of the flower without fading. Produces large flowers on extra long, strong heavy stems. Blooms have a rich, lasting fragrance. All American rose selection for 1950. **\$2.25 each.**

CHARLOTTE ARMSTRONG (Patent No. 445)—Unique color with long slender blood-red buds opening in magnificent brilliantly colored open flowers. All American rose selection in 1941. **\$2.25 each.**

CHRYSLER IMPERIAL (Patent No. 1167)—In color, Chrysler Imperial is unmatched by any other red rose. Its vivid rich tones of crimson are enhanced by darker overtones of glowing oxblood red, and the gem-like lustre of garnet in the folds retain its sparkling beauty. Long tapering buds unfold even in adverse weather, opening to high centered flowers measuring 4½ to 5 inches with 40 to 50 wide petals. A.A.R.S. award for 1953. **\$2.75 each.**

DIAMOND JUBILEE (Patent No. 824)—Double, high centered flowers of glowing buff-orange, with a touch of orange-yellow at base of petals. All American rose selection for 1948. **\$2.00 each.**

FORTY-NINER (Patent No. 792)—Brilliantly hued bi-color that justly secured an All American Rose Selection Award for 1949. Its contrasting colors are startling in their brilliance and yet they blend together beautifully. Inside of petals is a vivid orient-red, while the outside is a chrome-yellow, changing to straw-yellow. The long buds open to a well shaped bloom of 25 to 40 petals. Mildly fragrant. **\$2.50 each.**

GOLDEN SCEPTER (Patent No. 910)—Rare, new, unfading, golden-yellow; long slender buds, large, high centered. Won the highest Rose award in Holland. **\$2.00 each.**

MIRANDY (Patent No. 632)—First place winner of All-American rose competition for 1945. A strong free-branching plant producing large, long-pointed ovoid buds of rich dark red with black shadings, opening to chrysanthemum-red. The flower of 50 petals displays new beauties of form and is long lasting. Marvelously fragrant. **\$2.25 each.**

MOJAVE (Patent No. 1176)—All American Rose Selection Award for 1954. A Charlotte Armstrong cross retaining many of the fine plant characteristics of its parent along with the slender bud of that variety. The color is a blend of salmon, apricot and orange, and occasionally in cool weather the salmon color changes to red blended with the other two colors. **\$2.75 each.**

NEW YORKER (Patent No. 823)—Brilliant red, with color long lasting and sun resistant. Plant is sturdy, upright and vigorous. The buds slowly open into very large flowers, often measuring 6½ inches across, of scarlet with rose red undertones and overlaid with rich velvety-sheen. **\$2.00 each.**

NOCTURNE (Patent No. 713)—Bright cardinal red with dark shadings of crimson. All American rose selection for 1948. **\$2.00 each.**

PEACE (Patent No. 591)—Ovoid buds and golden-yellow etched with pink as they open, color changes from canary-yellow to pale golden. Petals are edged with apple-blossom pink that deepens as the flower slowly opens to glorious 5-inch blooms. All American award for 1946. **\$2.50 each.**

ROSE OF FREEDOM (Patent No. 791)—Winner City of Portland Award for 1947. A Hybrid Tea with beautiful 60 to 70 petaled, long-stemmed, currant-red blooms with delightful true rose fragrance. Blooms are normally borne on strong straight 28 to 32-inch stems. New wood usually thornless. A free bloomer and disease resistant foliage. Highest scoring red rose in 1946 and 1947 nation-wide trials. **\$2.00 each.**

SUTTER'S GOLD (Patent No. 885)—Beautiful, long-pointed, yellow bud, richly shaded with orange and red. Rich tea fragrance not found in any other yellow rose. The 24-petaled flowers are high-centered and richly colored. All American award for 1950. **\$2.25 each.**

TALLYHO (Patent No. 828)—A bright color but the contrast is not great. The color on the inside of the petals is a varying but always a delightful and unique shade of pink. The outside of the petals is a rich crimson. The buds, before they unfold, are deep cardinal red. The long-stemmed blooms open slowly and last exceedingly well because they have such heavy substance. They are very large when fully open, of perfect form and with spicy fragrance. All American award for 1949. **\$2.00 each.**

ROSE OF FREEDOM

Plumfield ROSES

FLORIBUNDA ROSES

WORLD'S FAIR

BABY BLAZE (Patent rights reserved)—A 1955 introduction which features dark red buds, opening to a rich velvety cherry red color and only a few shades lighter when fully opened. Excellent for group plantings, foundation plantings and hedges. Vigorous grower. **\$2.25 each.**

BETTY PRIOR (Patent No. 340)—Produces large fragrant clusters continuously throughout the season. Opens lively red turning to shell pink. Desirable for mass planting. **\$1.50 each.**

CHATTER (Patent No. 739)—Unusually bright crimson, generous flower clusters, continuously in bloom, velvety firm petals. **\$1.50 each.**

FASHION (Patent No. 789)—Brilliant luminous coral flowers overlaid with gold, opening with wavy graceful petals. All season bloom, large clusters and singly. All American award for 1950. **\$2.00 each.**

GERANIUM RED (Patent No. 811)—Flowers very double (fifty petals), strong geranium fragrance, bright geranium red; cluster. **\$1.75 each.**

GOLDLOCKS (Patent No. 672)—Rich golden yellow, buds are ovoid in shape, long lasting, hardy and vigorous. **\$1.50 each.**

HOLIDAY (Patent No. 915)—Generous clusters of large sized buds are orange-yellow brushed pink on the outside and strong vermilion red on the inside gradually giving way to a softer more delicate tone when open. **\$1.50 each.**

LILIBET (Patent No. 1209)—1953 and 1954 A.A.R.S. winner. A model hardy plant produces radiant roses in clusters of exquisite pink tones. The colors range from light rose to soft dawn pink during the progressive stages of bloom. **\$2.00 each.**

MA PERKINS (Patent No. 1143)—1953 A.A.R.S. winner. This very free blooming floribunda rose, with its sweetly pungent fragrance, shows a translucent light fashion color with shades of red in outer petals. Flowers are cup shaped. Rich green foliage. **\$2.00 each.**

PINOCCHIO (Patent No. 484)—A hardy plant producing an abundance of pointed buds of salmon-flushed gold, opening to miniature hybrid tea-like roses of soft clear pink, and in great clusters. **\$1.50 each.**

PINOCCHIO RED (Patent No. 812)—Masses of unfading clusters. Rich carmine; gradually deepens as blooms open. Wild rose fragrance. Prolific bloomer. **\$1.50 each.**

SUMMER SNOW (Patent No. 416)—The most prolific of white Floribundas with great "drifts" of beautiful large clusters like mounds of snow. Fragrant. **\$1.50 each.**

VOGUE (Patent No. 926)—New floribunda with its own unique brilliant glowing cherry-coral color. Individual flowers 3 to 4 inches in diameter are hybrid tea shaped with perfect high centered form. They open slowly from a dark cherry ovoid bud to the delightful cherry-coral open flower. Rich spicy fragrance. A.A.R.S. award for 1952. **\$2.00 each.**

WORLD'S FAIR (Patent No. 362)—First award "All America Rose Selection for Floribunda, 1940." Produces large clusters velvety blooms of fragrant blackish-scarlet with mass of golden stamens. **\$1.50 each.**

VOGUE

How To Plant Your Roses

To obtain success in planting roses it is important that they are properly planted. The roots should be trimmed back some and the hole dug large enough so that roots will not be crowded. Place the plant in the hole so that the bud union above the roots is at least two inches below the level of the ground, then fill in around the roots with dirt and water in well. After the water has seeped away, cut each cane back to about four inches above the level of the ground and cover the plant over completely with a mound of earth. After about six inches of new growth has forced through the mound of earth you can hoe the mound away gradually.

SOLID RED DELICIOUS

One of the most used fruits in the world. Can be easily grown, and should be planted extensively. Varieties we are listing are of the best sorts and recommended for this locality. You may make a selection of varieties and obtain quantity prices on Apples.

SUMMER VARIETIES

- ✓ **ANOKA**—July to August. This variety fruits very young. Red and yellow striped
- ✓ **DUCHESS**—August. An old variety, but still one of the best. A good cooking apple.
- ✓ **EARLY HARVEST**—July. The earliest summer apple. Pale yellow fruit.
- ✓ **EARLY MCINTOSH**—Two weeks later than Yellow Transparent. Handsome red color and pleasing taste. Good quality.
- ✓ **RED DUCHESS**—All red color. Season and quality same as Duchess.
- ✓ **RED JUNE**—Late July. Medium size, round, deep red fruit.
- ✓ **YELLOW TRANSPARENT**—July to August. Fruits quite young. Large clear yellow.

FALL VARIETIES

- ✓ **FAMEUSE or SNOW**—August. Light red fruit; delicious flavor.
- ✓ **WEALTHY**—Early September. One of the old standard varieties. Bears young and is very hardy.
- ✓ **STAYMEN WINESAP**—Deep red. Good commercial variety.

WINTER VARIETIES

- ✓ **CORTLAND**—Deep red. Good commercial variety. Comes into bearing young.
- ✓ **DARK RED JONATHAN**—The new dark red Jonathan. Colors two to three weeks earlier than Jonathan, and a deeper red.
- ✓ **RED DELICIOUS**—Solid red. One of the most popular apples. Fruit large, flesh white, tender and juicy.
- ✓ **GRIMES GOLDEN**—Rich golden color. An extra good all-round apple.
- ✓ **HARALSON**—Solid red. Fruit is of excellent quality, and a good keeper.

Plumfield Apples

Apple Trees too large for parcel post shipment.

	Each	Lots of 4 each	Lots of 8 each	Lots of 12 each
11/16 in. cal., 5-7 ft., select	\$1.50	\$1.45	\$1.40	\$1.35

WINTER VARIETIES, Continued

- ✓ **JONATHAN**—Red. The best apple of all. Should be included in every planting.
- ✓ **PRAIRIE SPY**—Wealthy shape, color red over yellow ground. Ready for use about Christmas. Very good quality and keeper. This apple has great promise.
- ✓ **NORTHWESTERN GREENING**—Yellowish green. Flesh crisp and juicy. Very hardy

WEALTHY

DOLGO

CRAB APPLE

- ✓ **DOLGO**—Fiery red. Bears young and abundantly. Tree very ornamental.
- ✓ **WHITNEY**—Light yellow striped red. Large fruit.

Plumfield FRUIT TREES

Apricots

CANNOT SHIP BY PARCEL POST

Apricots bloom early and many times are caught by frost. Heavy mulching after the ground freezes solid will retard their early blooming.

CHINESE—Yellow. Large fruit, and very hardy.

MOORPARK—Orange-yellow. Fruit large, with rich, sweet flavor.

SCOUT APRICOT—A Morden Manitoba, Canada, production. Bears well. Fruit bronze gold color. Flesh yellow, freestone, tender, free of fibre and thin skinned. Very hardy.

	SCOUT APRICOT	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft., select		\$2.20	\$2.15
9/16 in. caliper, 4-5 ft., standard		1.80	1.75
7/16 in. caliper, 3-4 ft.		1.40	1.35

MONTMORENCY

Cherries

CANNOT SHIP BY PARCEL POST

There is no fruit tree more profitable than the Cherry, especially the sour varieties, which are very desirable for pies and canning. They bear fruit very soon after planting and bring good returns on your investment. Cherries are easily raised, as they are adaptable to almost any kind of soil, and should be planted in large enough quantities to insure plenty of this desirable fruit for the family. You may select varieties and obtain quantity prices.

SOUR CHERRIES

	Each	Lots of 4 each
11/16 in. caliper, 5-6 ft., select	\$2.20	\$2.15
9/16 in. caliper, 4-5 ft., standard	1.80	1.75
7/16 in. caliper, 3-4 ft.	1.50	1.45

EARLY RICHMOND—Bright red. Earliest, and a good pie cherry.

ENGLISH MORELLO—Blackish red when fully ripe. Tart, but very rich for canning.

MONTMORENCY—Large, red. The best all-purpose cherry.

SWEET CHERRIES

BLACK TARTARIAN—A big purple-black sweet cherry of fine flavor. Very juicy.

YELLOW GLASS—Golden yellow. A hardy and productive sweet cherry.

11/16 in. caliper, 5-6 ft., select	\$2.80	\$2.75
9/16 in. caliper, 4-5 ft., standard	2.20	2.15
7/16 in. caliper, 3-4 ft., standard	1.70	1.65

BUSH TYPE CHERRIES

CAN BE SHIPPED PARCEL POST

HANSEN'S BUSH CHERRY—Makes a beautiful shrub, bears almost as much fruit as a plum tree. Good to eat fresh, canned, or in preserves.
3-4 ft., 3 year.....\$0.80 Each; 5 for \$3.75
2-3 ft., 3 year......60 Each; 5 for 2.75
18-24 in., 1 year......15 Each; 5 for .65

Pears

CANNOT BE SHIPPED PARCEL POST

BARTLETT (Summer)—Golden yellow, red cheek. Excellent flavor.

CLAPP'S FAVORITE (Summer)—Large pear. Excellent quality, smooth flesh. Hardy and bears young.

DOUGLAS (Winter)—The best winter pear. Hardy. Bears young and productive.

DUCHESS (Autumn)—Large greenish yellow. Flesh white. Excellent flavor. Hardy and productive.

FLEMISH BEAUTY (Autumn)—Large, beautiful, excellent quality, juicy. Hardy and productive.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft.	\$1.70	\$1.65

BARTLETT

Write Us for Varieties of Fruits Not Listed, as Space Does Not Permit Us to List All Kinds.

FRUIT TREES • Continued

Trees on this page cannot be shipped parcel post.

Plums

We wish to call your attention especially to the Hansen Hybrids and Minnesota Hybrids. These varieties will produce an abundance of high quality fruit. Usually bear the second year after planting. You should arrange to plant some of these. You may make a selection of varieties and obtain quantity prices.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft., select	\$1.80	\$1.75
9/16 in. caliper, 4-5 ft., standard	1.60	1.55

MINNESOTA HYBRIDS

- ✓ **LA CRESCENT**—August. Large. Golden, blushed with red. Very hardy.
- ✓ **MONITOR**—August. Large. Red, very hardy and productive. High quality.
- ✓ **UNDERWOOD**—August. Large, rich, red, rather oval and juicy. One of the best.
- ✓ **GOLDEN EMBER**—August and September. Good canning. Large rich golden yellow. Good keeper. Very hardy and productive.
- ✓ **SUPERIOR**—Ripens over a long period. Large red fruit, yellow flesh, juicy and sweet. We recommend this variety.

NATIVE VARIETIES

- ✓ **OMAHA**—August. Large, red and sweet. Productive and valuable.

HANSEN HYBRIDS

- ✓ **KAHINTA**—August. Large red, yellow flesh. Very productive. Good quality.
- ✓ **OPATA**—July. Medium size. Fruit purplish-red, with green flesh.
- ✓ **SAPA**—July. Medium size. Fruit purple with red flesh. Juicy and very good.
- ✓ **TOKA**—August. Large, red and very desirable. Similar to Hanska.
- ✓ **WANETA**—August. Large, red and very productive.

**We Solicit Your Inquiries
for Varieties Not Listed.**

Peaches

Next to Apples, Peaches are used for more purposes than most other fruits. Peaches picked from your own orchard are the finest flavored and best. One crop of fruit pays the grower many, many times the original cost of the trees. Peach can be profitably used as fillers in Apple orchards. We carry a long list of varieties and are listing only a few of the most popular.

	Each	Lots of 4 each
11/16 in. caliper, 5-7 ft., select	\$1.50	\$1.45
9/16 in. caliper, 4-6 ft., standard	1.30	1.25
7/16 in. caliper, 3-4 ft.	1.00	.95

- ✓ **CHAMPION**—Early. White with brilliant red cheek. Freestone.
- ✓ **ELBERTA**—Mid-season. Deep yellow with brilliant blush. Freestone.
- ✓ **GOLDEN JUBILEE**—Early. Apricot yellow with blush. Freestone.
- ✓ **HEATH CLING**—Late. Large white fruit. Cling.
- ✓ **HALE HAVEN**—Mid-season. Orange yellow overspread with red. Freestone.
- ✓ **J. H. HALE**—Mid-season. Yellow; almost free from fuzz. Freestone.
- ✓ **POLLY**—Early. Creamy white with red blush. Freestone. Very hardy.

Raspberries

LATHAM RASPBERRIES

Raspberries do well in most any soil. It is best to plant them where they are protected from the hot summer winds as they ripen in July. Raspberries are a very profitable crop.

- ✓ **CUMBERLAND**—Black. One of the most reliable varieties, and widely planted. 2-year old. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.
- ✓ **CHIEF**—Red. About ten days earlier than Latham. Very productive. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.
- ✓ **LATHAM**—Red. A fine fruit for home or market. Large fruit; bears heavily. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.

- ✓ **MORRISON BLACK RASPBERRY**—This new raspberry is the largest ever grown. Has very few seeds. A vigorous grower and is rapidly gaining favor among berry growers. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.

- ✓ **SODUS PURPLE RASPBERRY**—This is the heaviest bearing of all raspberries. Does well in the Midwest and produced a good crop when many other varieties failed. Upright grower and produces large berries. This variety should not be overlooked as it is an all around berry and has a delicious flavor. 5 for \$1.00; 10 for \$1.90; 25 for \$4.35; 50 for \$8.00.

CUMBERLAND

Boysenberries

- ✓ **BOYSENBERRY**—Huge berries of sweet delicious flavor. Almost seedless. Bears heavily over a long season

Per 5	Per 10	Per 25
\$0.80	\$1.50	\$3.25

- ✓ **BOYSENBERRY** (Thornless).

Per 5	Per 10	Per 25
\$1.00	\$1.90	\$4.35

- ✓ **SNYDER AND ELDORADO**—These are the hardiest and a favorite with fruit growers. Will stand cold winters and are good market varieties. Fruit medium to large. No. 1 root cutting plants.

Per 5	Per 10	Per 25
\$1.00	\$1.80	\$3.75

Rhubarb or Pie-Plant

RHUBARB—VICTORIA

	Per 3	Per 10	Per 25
Large, 2-year roots	\$0.50	\$1.50	\$3.50

- McDONALD'S CHERRY**—Originated in Canada. Grows 3 feet tall, nearly seedless. Fine sweet flavor and most beautiful sauce. Can pick all summer. 65c each; 3 for \$1.85.

- RUBY RED**—Seedless. Red all the way through. Extra fine flavor, and very beautiful red sauce. Can be picked all summer. 65c each; 3 for \$1.85.

Horseradish

Plant a few crowns or cuttings and grow your own. Crowns will produce the first year.

	Per 3	Per 10	Per 25	Per 100
Crowns	\$0.60	\$1.75	\$4.00	\$15.00

Asparagus

- MARTHA WASHINGTON**—Rustproof. This is undoubtedly the best Asparagus grown. Plant so that crowns will be about four inches deep in the ground, enabling you to cut the stalks below the ground. For best results plant two-year, heavy plants.

Per 10	Per 25	Per 50	Per 100
\$0.60	\$1.25	\$2.25	\$4.00

- NEW PARADISE ASPARAGUS**—Superior quality. Produces much faster. We recommend this variety.

Per 10	Per 25	Per 50	Per 100
\$0.75	\$1.50	\$2.75	\$5.00

A neat, attractive planting for the newer type of homes. This planting is two years old.

HOME FRUIT AND GARDEN SPRAYING CHART (One Gallon—Tablespoon Spraying Formulas)				
FIRST SPRAY				
Fruit or Vegetable	FOR	PURPOSE	TIME	SPRAY SOLUTION
Apple Pear Cherry Peach Plum	BARK SPRAY Including all forms of scale and scab.	To increase life, vitality and productivity of tree.	When the leaves have fallen in the fall or before the leaf buds have formed in the spring.	For each gallon use 10 tbsp. Dry Lime Sulphur.
	SECOND SPRAY This is the Most Important Spray as to results and time of application			
	WORM SPRAY	To kill the fruit worms and insects of leaf and bark.	When the petals of the blossom are about one-half fallen.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Dry Lime Sulphur 1 tsp. Nicotine Sulphate
	THIRD AND EXTRA SPRAYS			
	LEAF SPRAY	To control disease and kill worms and insects developed after second spray.	Two weeks after second spray—and extra spray should worms and insects appear.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Dry Lime Sulphur 1 tsp. Nicotine Sulphate
FIRST SPRAY				
Currant Gooseberry Raspberry Blackberry	BARK SPRAY Including all forms of scale and scab.	To increase life, vitality and productivity of plant.	Early in the spring while plants are dormant.	10 tbsp. Dry Lime Sulphur
	SUBSEQUENT SPRAYS			
	WORM SPRAY	To kill fruit worms, control disease, kill insects of leaf and bark.	When worms first appear and thereafter at 14-day intervals until five applications have been made.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Dry Lime Sulphur Add 1 tsp. Nicotine Sulphate to first application only.
REGULAR AND EXTRA SPRAYS				
Grape	BUG AND INSECT SPRAY	To kill bugs and prevent wormy fruit.	As soon as foliage appears and repeat at 15-day periods until four applications have been made.	2 tbsp. Dry Arsenate of Lead 1 tbsp. Prepared Bordeaux Mixture If Lice appear add 1 teaspoon Nicotine Sulphate.
REGULAR AND EXTRA SPRAYS				
Potato Cucumber Muskmelon Tomatoes	BUG AND BLIGHT SPRAY	To kill bugs and control blight, especially with potatoes.	When plants are real young and thereafter at 10-day intervals until five applications have been made.	2 tbsp. Dry Arsenate of Lead 3 tbsp. Prepared Bordeaux Mixture. When small Lice appear add 1 teaspoon Nicotine Sulphate.
REGULAR AND EXTRA SPRAYS				
Rose Bushes and Other Shrubbery	BUG, INSECT AND LEAF DISEASE SPRAY	To kill insects and bugs, and increase vitality of shrub.	Apply as foliage appears, especially on Rose Bushes and thereafter at two-week intervals.	2 tbsp. Dry Arsenate of Lead 3 tbsp. Prepared Bordeaux Mixture.
	GREEN LICE (Aphis) SPRAY		As lice (Aphis) appear.	1 tsp. Nicotine Sulphate. Use in combination with Arsenate of Lead and Bordeaux spray or separately, as desired.

ONE OF OUR WELL PLANTED HOMES

Plumfield SHRUBS

Beautify your home and add value to your property. The grades of shrubs that we are listing are standard grades, and are good strong plants, well branched. We have a complete assortment, and invite you to come to our storage and select your stock.

(†Shrubs with attractive berries)

ALMONDS (Pink or White)—A dwarf early flowering shrub. Branches covered with beautiful rose-colored flowers.

18-24 in.....\$1.25 2-3 ft.....\$1.50
3-4 ft.....1.85

BARBERRY (Red Leaved)—Red foliage, with red berries in the winter. Must be planted in the sun in order to bring out the color of the foliage.

15-18 in.....\$1.15 18-24 in.....\$1.40
2-3 ft.....1.65

BARBERRY THUNBERGI—Green leaved. A useful shrub for border and foundation planting. Leaves change to brilliant crimson scarlet and gold in the fall and red berries remain almost all winter.

12-15 in.....\$0.60 15-18 in.....\$0.80
18-24 in......95 2-3 ft.....1.10

BEAUTY BUSH—Blossoms in early summer. Long arching branches covered with clusters of pale pink trumpet shaped flowers.

18-24 in.....\$1.40 2-3 ft.....\$1.65

BUTTERFLY BUSH (Ile de France)—A perennial shrub dying to the ground in winter, producing large flowers of rich reddish purple in long panicles.

No. 1.....\$0.90 3 for.....\$2.55

BUTTERFLY BUSH (Charming)—A new patented variety. Long sprays of lavender-pink blooms which are quite pink compared with other varieties of Butterfly Bush.

No. 1.....\$0.90 3 for.....\$2.55

THUNBERGI BARBERRY

Flowering SHRUBS

COTONEASTER—Glossy, dark green leaves turning to brilliant shades in the fall. Black fruit.

18-24 in.\$0.85 2-3 ft.....\$1.15
3-4 ft. 1.50

DOGWOOD (Goldentwig)—Yellow branches and canes. Small white flowers followed by silver berries.

2-3 ft.\$1.35 3-4 ft.....\$1.65

DOGWOOD (Red Bark)—A favorite shrub because of the red bark on twigs and canes during the winter. Silver berries.

18-24 in.\$1.00 2-3 ft.....\$1.35
3-4 ft. 1.65

ELDER (Golden Leaved)—Bright yellow foliage throughout the summer. The berries attract the birds.

2-3 ft.\$1.40 3-4 ft.....\$1.65

EUONYMUS, atropurpureus, Wahoo—12-15 ft. Native, hardy vigorous shrub or small trees producing an abundance of scarlet berries. Attractive colored foliage in autumn.

2-3 ft.\$1.40

FORSYTHIA

FORSYTHIA or GOLDEN BELL (Intermedia)—Early blooming shrub of a spreading habit of growth. Very free blooming.

18-24 in.....\$1.10 2-3 ft.....\$1.40
3- 4 ft. 1.65

FORSYTHIA FORTUNEI—Upright, tall-growing shrub. Branches arching and bearing clusters of golden yellow blossoms.

2-3 ft. \$1.40 3-4 ft.....\$1.65

HONEYSUCKLE PINK TATARIAN—Planted extensively, bearing heavily with pink blossoms, and producing large quantities of scarlet berries.

18-24 in. \$0.95 2-3 ft.....\$1.25
3- 4 ft. 1.50

HONEYSUCKLE, ZABEL—Improved strain of Red Tatarian; a very good red.

18-24 in.....\$1.00 2-3 ft.....\$1.25
3- 4 ft. 1.50

Special Landscape grades available at slight additional charge

HONEYSUCKLE BUSH

HONEYSUCKLE RED TATARIAN—The most extensively used Bush Honeysuckle. Blooms freely and carries loads of bright red berries in mid-summer.

18-24 in.....\$0.95 2-3 ft.....\$1.25
3- 4 ft. 1.50

HYDRANGEA P. G.

HYDRANGEA PANICULATA GRANDIFLORA—Large showy panicles of creamy white flowers changing to rose, then purple and bronze. Blooms late summer.

12-18 in.\$0.80 18-24 in.....\$1.15
2- 3 ft. 1.40

HYDRANGEA ARBORESCENS GRANDIFLORA—Blooms in mid-summer. Blossoms resemble huge snowballs.

12-18 in.....\$0.80 18-24 in.....\$1.15
2- 3 ft. 1.40

FLOWERING QUINCE (Cydonia Japonica)—Scarlet flowers appear before the leaves. A very popular shrub.

12-18 in.....\$0.90 18-24 in.....\$0.95
2- 3 ft. 1.25

Plumfield Flowering SHRUBS · Cont'd

LILAC

PHILADELPHUS GLACIER

LILAC ROTHOMAGENSIS (Chinese)—A tall growing shrub with slender, arching branches producing purplish-red flowers.

18-24 in.....	\$1.15	2-3 ft.....	\$1.40
3- 4 ft.			1.65

LILAC PERSIAN—Similar to Rothomagensis, except that the flowers are more nearly red.

18-24 in.....	\$1.15	2-3 ft.....	\$1.40
3- 4 ft.			1.65

FRENCH LILACS

Alphonse Laval—Double lilac.

Belle de Nancy—Double rose, with white center.

Chas. Joly—Double purple.

Chas. X—Single reddish purple.

De caisne—Single azure blue.

General Sheridan—Double white.

Jacq. Collett—Double pink.

Michel Buckner—Single lilac.

Mme. Abel Chatenay—Double white.

President Grevy—Double bluish lilac.

Vaubon—Double lilac pink.

PHILADELPHUS CORONARIUS (Sweet Mock Orange)—Tall growing, producing a profusion of large white, fragrant blossoms. Bloom in late spring.

2-3 ft.....	\$1.40	3-4 ft. heavy.....	\$1.75
-------------	--------	--------------------	--------

PHILADELPHUS GLACIER—Large, white flowers, very double, sweet scented. Shrub hardy, symmetrical and compact. Leaves bluish green. Does not grow as fast as standard varieties of Philadelphus, therefore more desirable for average garden or lawn.

18-24 in.....	\$1.15	2-3 ft.....	\$1.40
3- 4 ft. heavy.....			1.75

PHILADELPHUS VIRGINAL—Showy white, semi-double blossoms produced over a long season, beginning in May.

12-18 in.....	\$0.80	18-24 in.....	\$1.15
2- 3 ft.			1.40

PRIVET, AMUR RIVER—See hedging.

SNOWBALL—See Viburnum Opulus Sterillis.

SPIREA ANTHONY WATERER—A popular low-growing shrub in bloom constantly all summer. Large, flat clusters of deep rose colored blossoms.

12-15 in.....	\$1.00	15-18 in.....	\$1.15
18-24 in. heavy.....	1.40	2-2½ ft.....	1.65

SPIREA BILLARDI (Billard's Spirea)—Long feathery plumes of dainty pink. Blooms in mid-summer.

18-24 in.....	\$1.00	2-3 ft.....	\$1.25
3-4 ft. heavy			1.60

SPIREA FROEBELI (Froebel's Spirea)—Dwarf, vigorous grower. Young foliage tinged red, flowers rose color.

12-18 in.....	\$0.85	18-24 in.....	\$1.00
2- 3 ft. heavy			1.15

SPIREA MULTIFLORA—Semi-dwarf shrub that resembles both the Spirea Arguta and Spirea Thunbergi. Grows well in both shady and sunny places. Flowers are white, blooms early in spring before the foliage starts. Ideal for foundation plantings.

2-3 ft.....	\$1.25	3-4 ft.....	\$1.50
-------------	--------	-------------	--------

SPIREA THUNBERG—Graceful early flowering shrub. Pure white flowers, bright green feathery foliage.

18-24 in.....	\$1.15	2-3 ft. heavy...	\$1.25
---------------	--------	------------------	--------

Special Landscape grades available at slight additional charge

FRUIT TREES AND FRUIT PLANTS
 PAGES 7 TO 11

HOW TO PLANT

In planting in yard, garden, or field, the ground should be well prepared, and stock should be handled with least possible exposure. We offer the following suggestions on some of the more important plants.

How to Plant Roses

How to Plant Balled Evergreens

Wrong Way

Right Way

To determine the number of plants required per acre for any distance multiply the two plant distances and divide the product into 43,560 (the number of square feet per acre).

PLANTING DISTANCE OF FRUIT TREES

	Usual recommended distance	Best average distance	Number Per acre at average distance		Usual recommended distance	Best average distance	Number Per acre at average distance
Apple	25 to 32 feet	30x30 feet	43	Blackberry	1½ to 3x7 feet	2x7 feet	3110

FARMSTEAD WINDBREAK PLANTINGS

The pictures on this page of farmstead plantings are becoming common sights throughout the Midwest. We can think of no greater contribution toward the beautifying of our midwestern states than what these many farmstead plantings present us with. We must all remember that our complete livelihood depends upon the soil, therefore we must preserve it. Properly planted windbreaks pay good dividends. They protect against hot winds from burning up crops as well as carrying the top soil away. They protect livestock and farm buildings from cold winds and snow. Remember, wind dries out the soil and dry soil seldom produces profitable crops.

Farmstead Planting of Spruce and Pines.

Farmstead Windbreak of Evergreens showing method of planting.

The large Evergreens in this planting add a lot of beauty to this farm home, as well as stopping hard driving winds, also stops dust from gravel and dirt roads.

Lombardy Poplar Windbreak is one of our evergreen fields.

Chinese Elm background furnished much protection in our baby evergreen fields.

Protecting young shrubs in our field with an evergreen windbreak.

FOREST TREE SEEDLINGS...

for Windbreak, Shelterbelt and Woodlot Plantings

It is good farm economy to systematically plant and maintain carefully arranged farm plantings. You may plant them to protect the farm buildings and feed lots against cold winter winds, or to trap heavy snow-falls and keep it out of the corrals and farm yard. In much of this plains country the winds often blow the soils and cause them to drift badly. Good shelterbelt plantings will do much to save the soils and protect the crops.

Besides improved farm appearance, plantings soon grow into a source of wood supply, posts and lumber. A good farm planting is a valuable asset which grows in value each year.

The selections of deciduous (broadleaf) trees listed below are those species which have proved to be the most valuable for the midwest area. Many farmers and ranchers consider it a good practice to use a row or two of shrubs in each planting which aids the trees by keeping down internal wind movement and the loss of valuable leaf litter. Shrubs also become a source of food and cover for desirable wildlife. All our stock is carefully graded and selected to insure vigor and good survival.

For the best arrangement and selection of species for your individual needs we suggest that you consult your Soil Conservation District or your County Agent.

If mail shipment is desired, add 15% to order unless order is under \$2.00, then add 30 cents to cover special packing and postage. Otherwise we will ship best way, charges collect.

EVERGREENS for Windbreaks . . .

Evergreens are the most valuable of all trees for farmstead plantings because of their lasting beauty and the fact that they form a dense effective wind barrier for the entire year. They are slightly more difficult than deciduous trees to establish, but are well worth the required extra care. Most of the species should provide protection for 100 to 300 years if fenced from livestock. You may plant them as a solid evergreen planting or as a row or two along a deciduous windbreak. They should be cultivated clean for the first few years until they shade out competitive vegetation.

Evergreens cannot be packed with other stock but will be shipped separately because, as a rule, the frost does not go out of the ground as soon around evergreens.

TRANSPLANTING—These Evergreens have all been transplanted one or more times. The letter "T" following the size indicates the number of times transplanted. Transplanting is done to develop more fibrous roots which start much faster than large heavy tap roots. This class of stock will give you a better percentage of survival than stock not transplanted. For the fact these cannot be packed with other stock, we will ship **POSTPAID**.

Plumfield EVERGREENS

GRAFTED JUNIPER VARIETIES

Plumfield Evergreens, Spruce and Pines

JUNIPER CANNARTI

DUNDEE JUNIPER

VIRGINIANA GLAUCA

VIRGINIANA CANNARTI, Cannart's Red Cedar. 20-30 ft.

Foliage deep, rich green. Main stem very straight. Branches almost horizontal. Requires shearing to attain compactness.

2½-3 ft.	\$10.00
3-3½ ft.	12.50
3½-4 ft.	14.00

VIRGINIANA PYRAMIDIFORMIS (Dundee Juniper).

Compact, symmetrical growth. Green foliage changing to purple in winter. A very desirable, pyramidal tree.

3-3½ ft.	\$12.50
3½-4 ft.	14.00
4-4½ ft.	16.00

VIRGINIANA GLAUCA, Silver Red Cedar. 15-20 ft.

An old variety. Pyramidal tree of moderate size. Silver blue color. Brightest in spring, darkening as season progresses. Stands trimming well.

2½-3 ft.	\$10.00
3-3½ ft.	12.50

TAXUS BROWNI—Spreading Yew

The aristocrat of all the evergreens. It retains a foliage which is lush, rich dark green and waxy the year around. An ideal plant for shaded or partially shaded areas such as the north and east sides of buildings. Not suitable for planting on the west or south side of buildings unless there is sufficient shade from nearby trees. These can be sheared if so desired.

18 to 24 in., in 3-gal. cans....\$12.50 Each

A PLANTED COUNTRY HOME

Plumfield **EVERGREENS**

GRAFTED JUNIPER VARIETIES

JUNIPER MOFFETI

Another wonderful tree selected from the Rocky mountains of Colorado and is a dandy tree. Foliage sharp, light greenish-silver color, tips of branches are more silver. Habit is upright and pyramidal, branches grow close together making a very dense tree. Grows about 12 inches a year. Can be sheared if desired.

2½-3 ft.	\$10.00
3-3½ ft.	12.50
3½-4 ft.	14.00
4-4½ ft.	16.00

JUNIPER WELCHI

The Welchi is the most satisfactory columnar type Scopulorum on the market today. Foliage is a light, evenly mixed greenish-silver. Leaves sharp but lay very close to the stem. Branches are very full and tufted at the base tapering out to a prominent point, yet they are sharply curved upward forming a fine outstanding columnar tree. Grows about one foot a year. Ultimate height 20 to 25 feet. Can be sheared if necessary.

3-3½ ft.	\$12.50
3½-4 ft.	14.00
4-4½ ft.	16.00

JUNIPER SUTHERLAND

This type of evergreen is definitely green in color as compared to the other varieties of Scopulorum. It is bushier in growth habit than the others, and consequently wider at the various given heights than is the case with other varieties of the same size. Its beauty in our opinion is to allow it to grow in a natural manner without shearing.

2½-3 ft.	\$10.00
3-3½ ft.	12.50
3½-4 ft.	14.00

BLUE HEAVEN

The Blue Heaven is one of the most colorful junipers that we have ever seen. It is a columnar type scopulorum that becomes more compact and beautiful with age. We have been producing this variety for a number of years and it has proved very satisfactory. If you desire a tree with outstanding blue foliage, then this is the tree to plant.

2½-3 ft.	\$10.00
3-3½ ft.	12.50
3½-4 ft.	14.00

GLOBE SCOPULORUM

The natural Globe Scopulorum is truly a beautiful tree with attractive silver foliage. There is enough greenish cast mixed with the silver foliage so that the tree blends well with other colors. It isn't necessary to shear this tree unless you desire to maintain a certain size over a longer period of time.

18-24 in.	\$7.90
2-2½ ft.	9.00

MONTANA NO. 1

Montana No. 1 is a semi-dwarf, dark green tree and we are sure that this variety is one that you will be hearing a lot about in the future. It is not a new variety with us as we have been growing it for years but since it is a very slow grower it requires a longer time to build up an adequate supply to offer to the trade. This tree will be the answer to many of your landscape problems where semi-dwarf trees are desired.

2½-3 ft.	\$10.00
3-3½ ft.	12.50
3½-4 ft.	14.00
4-4½ ft.	16.00

Plumfield EVERGREENS

GRAFTED JUNIPER VARIETIES

Plumfield Evergreens, Spruce and Pines

CANADENSIS ALBERTIANA

Black Hills Spruce

Native of the Black Hills of South Dakota. Foliage varies from dark green to blue. One of the most hardy Spruce. Grows symmetrical, compact and very shapely.

18-24 in.....	\$ 5.00
2-2½ ft.	6.00
2½-3 ft.	7.00
3-3½ ft.	8.50

PINUS REGENSIS SYLVESTRIS

(Scotch Pine)

This variety has superiority over other Scotch Pines. Very hardy. Grows straight and fast, does well on light, dry soils. Grows from 12 to 18 inches a year. Ultimate height 60 to 80 feet. Foliage light green, needles 2 to 3 inches long, buds brown.

2½-3 ft.	\$ 7.50
3-3½ ft.	9.00
3½-4 ft.	11.00

3-3½ ft.	12.50

**VISIT OUR GROUNDS
AND SELECT
YOUR EVERGREENS**

PINUS NIGRA (Austrian Pine)

An outstanding Pine in the Middle West. Quite resistant to smoky atmosphere and irregular weather conditions. Has long needles, rich dark green. The dormant eyes at tips of branches are white and resemble candles. Grows about 12 inches a year. Ultimate height 50 to 60 feet.

2½-3 ft.	\$ 7.50
3-3½ ft.	10.00
3½-4 ft.	11.00

PINE MUGHO

Very hardy. Spreading, dwarf, compact habit. Fine for rockeries, foundation plantings, used in front of larger growing varieties.

15-18 in.....	\$5.00
18-24 in.....	7.00
2-2½ ft.	9.00

SHRUB AND EVERGREEN PLANTING

SPREADING JUNIPERS FOR FOUNDATION AND BORDER PLANTINGS

SABINA JUNIPER

Grows a trifle more upright than Pfitzer with fan-shaped branches. Is equally as hardy and has deep green foliage. Withstands smoky conditions in cities.

18-24 in.....	\$6.00
2-2½ ft.	7.50
2½-3 ft.	8.50

VIRGINIANA ELEGANTISSIMA LEE

Gold Tip

Dark green foliage. Golden tipped, more so in autumn. The natural tendency is to grow low and spreading. Very hardy and desirable, where color is required.

18-24 in.....	\$ 6.00
2-2½ ft.	7.00
2½-3 ft.	8.00
3-3½ ft.	10.00

PFITZER'S JUNIPER

(*Juniperus chinensis pfitzeriana*)

Exceptionally beautiful, graceful and hardy—no wonder it is one of the most popular. Handsome, feathery, gray-green foliage covers the arching, spreading branches as it develops its broad, picturesque form. Hardy everywhere, and does well in shade as well as sunlight.

18-24 in.....	\$7.00
2-2½ ft.	8.00
2½-3 ft.	9.00

Balled and burlapped Evergreens cannot be shipped by parcel post.

Prostrate and Creeping Junipers for Ground Cover

JUNIPER ADMIRABILIS

This juniper belongs to a specie found in the Rocky Mountains. Its habit of growth is horizontal but it is so compact that it makes a solid mat of evergreen, covering the ground completely. Foliage bluish green. Grows 6 to 8 inches high. Spreads rapidly, yet retains its compactness. A very fine plant to use for covering graves, terraces or any place where a low beautiful covering is wanted.

ANDORRA JUNIPER

A horizontal juniper with grayish-green foliage turning to a reddish purple in early winter. Spreads rapidly, making a fine ground cover eight to ten inches high.

The above Junipers are used for terrace, rock garden and grave covering.

JUNIPER FILICINUS MINIMUS

This pretty little juniper is also a variety of the Rocky Mountains. It is one of the finest foliage evergreens of the juniper family. Its short horizontal limbs covered with delicate small branchlets forming fern shaped branches makes it a gem for the rock garden or any other place that a slow growing prostrate evergreen is desired. Grows 4 to 6 inches high, spreads slowly and is very compact. Green foliage.

JUNIPER LIVIDUS

This is another fine variety of the Rocky Mountain region. Foliage is bluish-green with a silver cast. Branches more slender but very well furnished and does make a remarkable plant. It grows 4 to 6 inches high and spreads reasonably fast, making it very desirable to use.

Available in 10-12 inch Bare Root, Packed in Moss at \$1.50 Each, 3 for \$4.00, Postpaid.
